Draw blood into four 10ml yellow top (ACD-A) tubes. If 40 ml cannot be obtained, please send whatever you can draw. Purple top (EDTA) tubes can be used only if yellow are not available.

Label tubes with patient first and last name and blood draw date. Place tubes into Styrofoam mailer. Lay absorbent pad on top of tubes.

Use tape to seal Styrofoam mailer closed around the edge.

Slide mailer into rigid cardboard outer box.

Place box inside of plastic bag and seal shut.

Fill in section 1 (Shipment From) with your name and address. If you are not using a pre-printed UPS way-bill or are shipping internationally, please contact us at (800) 223-2273 x 57869

Place packaged kit (and any documentation) inside of plastic laboratory shipping bag and seal shut.

Schedule a pick up for your package by calling 1-800-PICK-UPS, or use a pick up at your location. Ship blood within 48 hours of collection. Store blood at room temperature and out of direct light until it is shipped. Send email to gmb@ccf.org to let us know your shipment is coming.

All shipments go to: Genomic Medicine Biorepository NE5-214, Cleveland Clinic
2119 E. 93rd St., Cleveland, OH 44106
Tel: 216-444-4731
